SPACE SOLUTIONS (SCOTLAND) LTD CARBON REDUCTION PLAN

December 2025

Supplier name

Space Solutions

Publication date

April 2025

Reporting period

April 2025-March 2025

Commitment to achieving net zero

Space Solutions Scotland Ltd is committed to achieving net zero emissions by 2040.

Baseline emissions footprint

Baseline year: 2024-2025

Additional details relating to the baseline emissions calculations:

Baseline emissions are calculated using Sea Zero platform and follow ISO 14064 and GHG

protocol standards.

Baseline year emissions:

Scope 1: 126.9 tCO₂e Scope 2: 10.4 tCO₂e Scope 3: 193.7 tCO₂e Total emissions: 331 tCO₂e

Current emissions reporting:

Reporting year: 2024–2025 Scope 1: 126.9 tCO₂e Scope 2: 10.4 tCO₂e

Scope 3: 193.7 tCO₂e Total emissions: 331 tCO₂e

Emissions reduction targets

We estimate that a realistic decrease in carbon emissions over the next five years would be 20%. This would reduce emissions to 265 tCO₂e by 2030, a reduction of 66 tCO₂e.

While this is the 5 year target the aim will be to better this. Annual monitoring will track progress to ensure we are on track.

Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 2024 baseline:

- Transitioned Aberdeen office to 100% renewable electricity
- Conducted carbon reduction workshop with cross-functional team
- Developed fleet replacement strategy and reformed pool car system
- Promoted Cycle to Work scheme and improved commuting data
- Conducted waste audit and investigated EV charging infrastructure

Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Deploy electric/hybrid vehicles and install EV charging points
- Conduct energy audits and upgrade offices
- Introduce structured travel policies and engage suppliers on carbon reporting

Prioritise low carbon procurement and adopt circular economy practices

Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed:

Steve Judge Managing Director
